

Fine Art

Portraits : Images captured in time encapsulating the character, spirit and soul preserved on canvas.

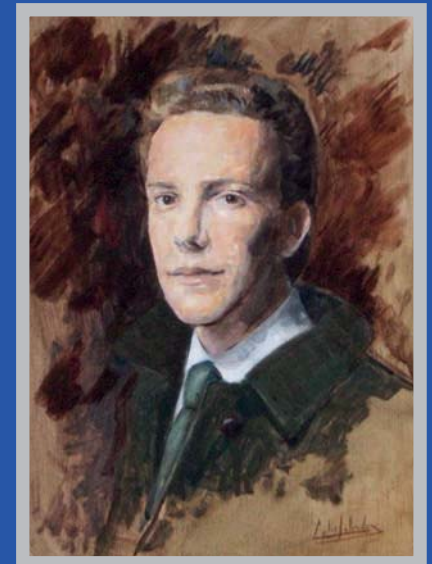

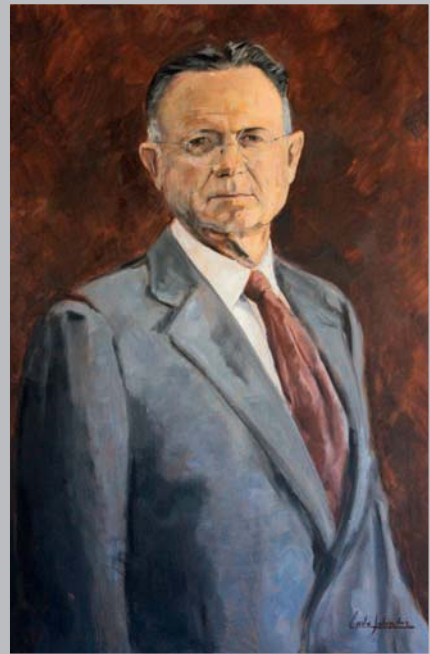

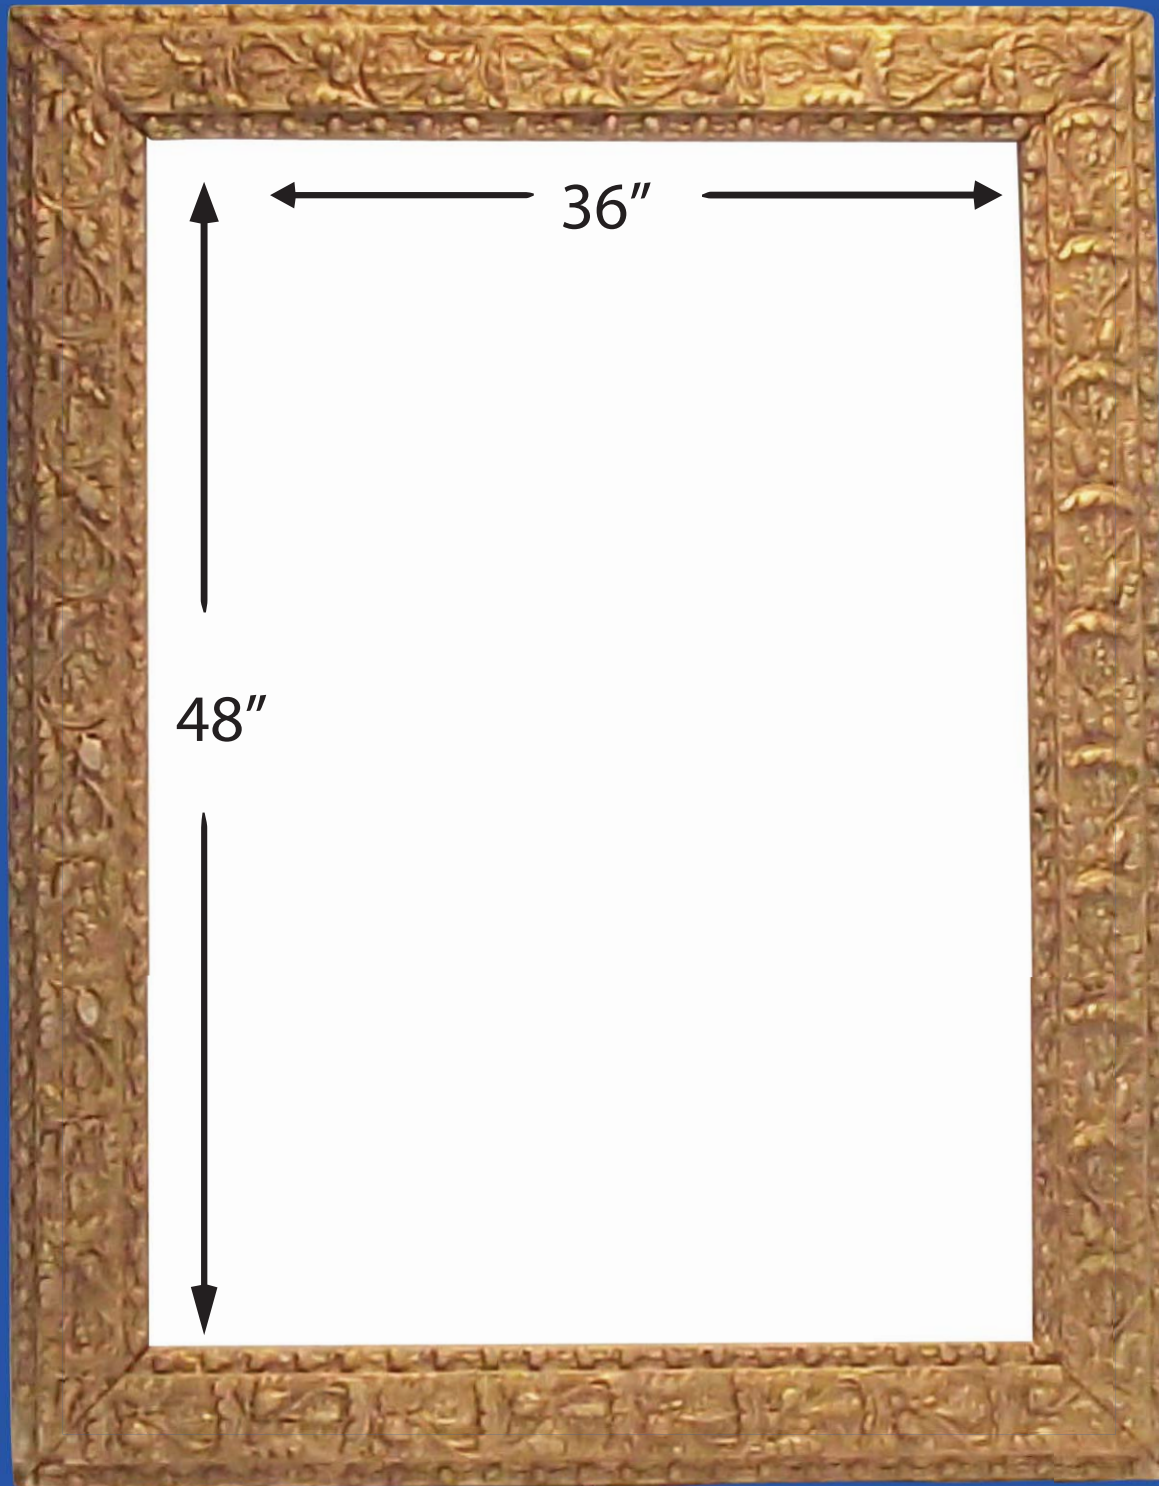

Carlos Salvador Mira  
Portrait Painter

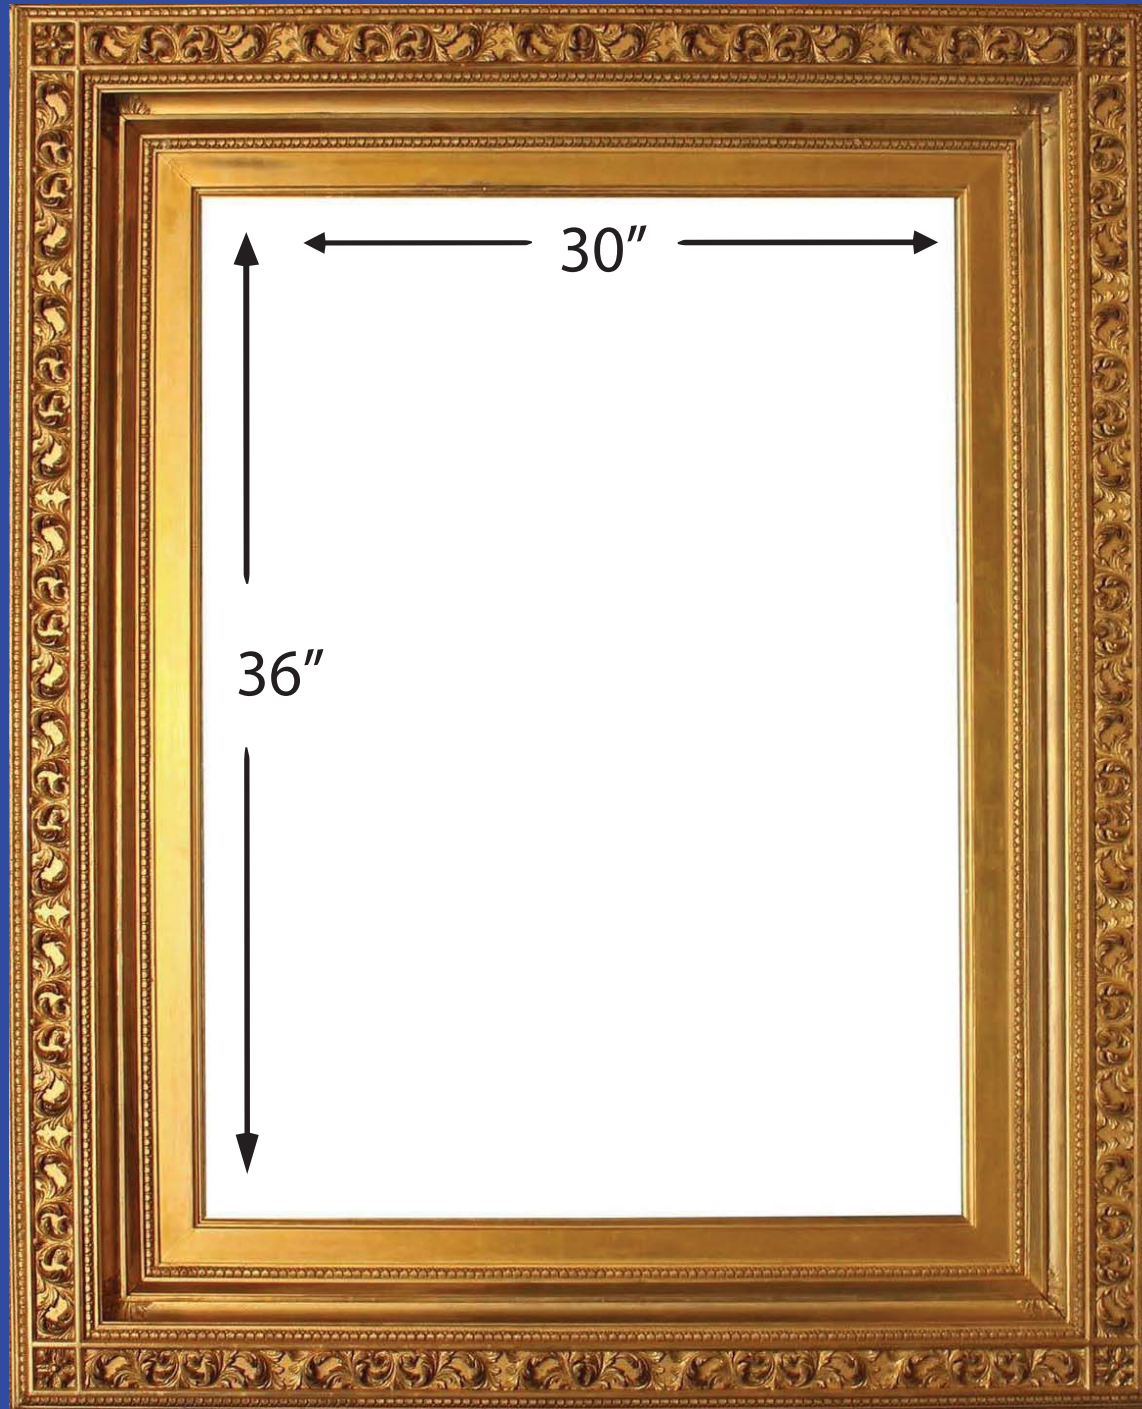

Carlos Salvador Mira is a classically trained contemporary Spanish artist specialising in portrait painting. He has gained huge experience painting high profile Spanish personalities as well as family and friends. His technique orientates towards capturing a perfect image while reflecting the character of the sitter. In the portrait of his brother, Alejandro, displayed on the outside cover, the artist encapsulates emotion, strength and integrity. Vibrant colour and attention to detail create a unique original painting every time. Carlos believes a portrait should adequately reflect the sitter while being a work of art as well as an easy image to display in any private collection. Portrait paintings preserve for ever the image of the sitter for family and friends to admire and enjoy.
